

Seawolf 29

29'

Cruisability, strong, and comfortable, the Seawolf 29 is built to the highest quality standards in the industry today. Compare construction: exterior through-bolted deck-to-hull joint with heavy extruded aluminum toerail, internal ballast fiberglassed in place and gel-coated, a one-piece, heavy, solid fiberglass hull, oversized rigging, and complete inner liner all add to the strength and safety of the boat.

Accessibility is also a key ingredient to a great cruising boat. The unique exterior deck-to-hull joint with stainless bolts, stanchion bolts, and stern-mooring cleat bolts are all accessible from outside the boat. Access is provided from inside the boat to all deck hardware. No more tearing your boat apart to tighten a loose fitting.

The Seawolf 29 is a truly big boat with 6'3" headroom. A fully enclosed head with

pressure water and shower is standard. The galley is complete with Origo two-burner alcohol stove, built-in icebox, deep sink with pressure water, and storage cabinets. Exceptional ventilation is provided with seven screened opening ports, a large forward hatch, a huge main hatch, and an optional midcabin hatch.

Teak and holly sole and ceiling strips add to the beauty of the boat. Light-gray hull and nonskid with colored sheer and boot stripes greatly enhance the overall appearance of this spacious boat.

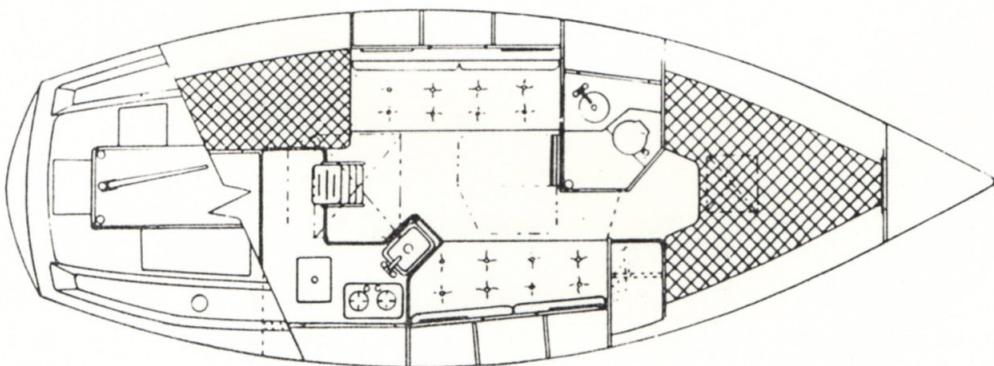

Isomat spars, Barent winches, Edson steering, and Bomar aluminum opening ports and hatches complement Watkins quality construction. Options include wheel steering, anchor platform with extended pulpit, and head with holding tank. These options allow an owner to tailor the boat to his or her own needs.

L.O.A. 28'11"
LWL. 24' 0"
Beam. 10' 0"
Draft. 4' 0"
Ballast. 3,900 lbs.
Displacement. 8,800 lbs.
Sail Area. 373 sq. ft.
