

# The International Snipe

## Here's Why You Should Sail a Snipe

Champion  
1 crew

- The SNIPE'S design emphasizes tactics, strategy and execution, rather than strength, gymnastic ability or design changes.
- The SNIPE is easily sailed by the novice and intermediate, and yet still challenges the world's best sailors.
- The SNIPE can be sailed competitively by a broad range of team combinations and requires only one crew. Families, couples, and friends of all sizes can sail together.
- The SNIPE can be sailed competitively over an extensive range of one's lifetime.
- Due to its competitiveness and extensive regatta opportunities, the Class attracts numerous Olympic and world class sailors looking for quality boat time to keep their skills sharp. Your sailing skills will be enhanced.
- The SNIPE CLASS is a strict one-design class which protects the design and its member's boats, resulting in lasting competitive boat life and resale value.
- The SNIPE CLASS is run by its members and has over 63 years of tradition and over 28,000 boats produced. This assures one of enjoyable, well organized competition in a boat that people have and will continue to sail for years.
- A Class that realizes not everybody can be first, but everyone can improve and have fun, on and off the water.

The Snipe Class in the USA has 1300 members organized in 70 fleets nationwide. Internationally SCIRA has over 3,000 members sailing in 27 countries across Europe, South America, the Caribbean, the Far East and Canada, and the United States.
