

# Soverel 33

33'

**T**he Soverel 33 incorporates a number of Soverel trademarks—performance-giving features developed over a decade at the front of racing fleets around the world. They underscore a Soverel premise: Nothing beats a fast boat.

Here is a design that carries a 40-footer PHRF rating, proof of true boatspeed. This includes close-windedness, early planing and surfing, extraordinary power reaching, and the thrill of blowing the doors off far larger high-performance designs.

Soverel 33 carries a bright, contemporary interior behind which stands the strength and stiffness of an inner structural grid. This, in turn, is integrated into a composite/core hull intended to continue racing even under punishing offshore conditions. Construction by Tartan ensures both quality and a long life of racing.

See your Soverel dealer or write for information on 27- to 50-foot Soverels. We offer performance for those who hate to lose.
