

# Saturna 33 Pilothouse

**33'**

**T**he Saturna 33 is neither a compromise racer/cruiser nor is she a motorsailer. Instead, William Garden has designed a serious cruising yacht that is easy to handle, fast, and has the ability to carry a good sail area even in heavy weather. Equally at home inland, coastal, or ocean going, she has been seen in ports as far away as Hawaii and Tahiti. In her size range, she is perhaps the finest expression of a true cruising yacht built in Canada today.

Saturna Yachts Inc. strongly believes in building only the best quality yachts. Close study of the standard specifications and equipment list should convince even the most discriminating buyer that no compromise is allowed at Saturna. From the number and quality of standard winches to the heavy-duty plow anchor, windlass, and 150' of  $\frac{3}{8}$ " calibrated chain; from the hand laminated fiberglass hull to hal-yards; from quality sails and furling gear to the 27-horsepower Westerbeke diesel engine, Saturna inspires confidence.

Some people say that the best feature of the Saturna 33 Pilothouse is . . . the pilothouse itself. With wheel steering inside and out, this fine yacht assures complete cruising comfort regardless of the weather. Now crewmembers can stay dry during rainy weather and protected from overexposure to the sun.

Now is the time to make your own pleasant discoveries about the Saturna 33 Pilothouse. Ask about Saturna's "Passport to Ownership" program in which charters become credits against the purchase of a new Saturna 33 Pilothouse.

L.O.A. .... 33' 0"
