

**Snark Sundancer™**

# Snark Sundancer™

## Adds New Class To The Sailing Scene.

Engineered for speed and designed for fun, Sundancer™ is the newest performer in regattas. With its shiny yellow hull and splashy, multi-colored sail, Sundancer stands out in the sailing crowd.

Whether you're into competitive racing or just some friendly sailing for two, the affordable Sundancer is for you.

## A Sleek Lightweight...

Sundancer is less than 100 pounds of sheer speed. The clean-lined hull skims the waves. The 60 square-foot cat rig sail captures all the wind power you need. The hydro-dynamically shaped daggerboard and rudder slice through the

water. And the hiking stick lets you lean out for even greater speed and control.

## That's One Tough Little Number

Sundancer features a roomy, high impact Armor-Clad™ hull. Its foam core makes sinking virtually impossible. The rugged Dacron sail is long-lasting. Except for a little soap and water, absolutely no maintenance is necessary.

## Have Boat, Will Travel

Just strap your Sundancer on top of the car and you're ready to go. One person can easily launch her and trim the sail.

The rigging is so simple, you'll learn to race in a day. And if you like to fish, Sundancer easily converts to a rowboat.

One person can do it all. But with the Sundancer, it's more fun with two.

## FEATURES

Complete with Dacron cat rig sail, daggerboard, rudder, hiking stick, rigging, fittings and removable oarlocks (oars not included).

Mast, spar and boom anodized aluminum.

Wood parts marine varnished.

Sailing manual included.
