

*The world's most popular  
Sailboat just got even better.*

Now Sunfish is made with a rolled flange hull to deck joint for

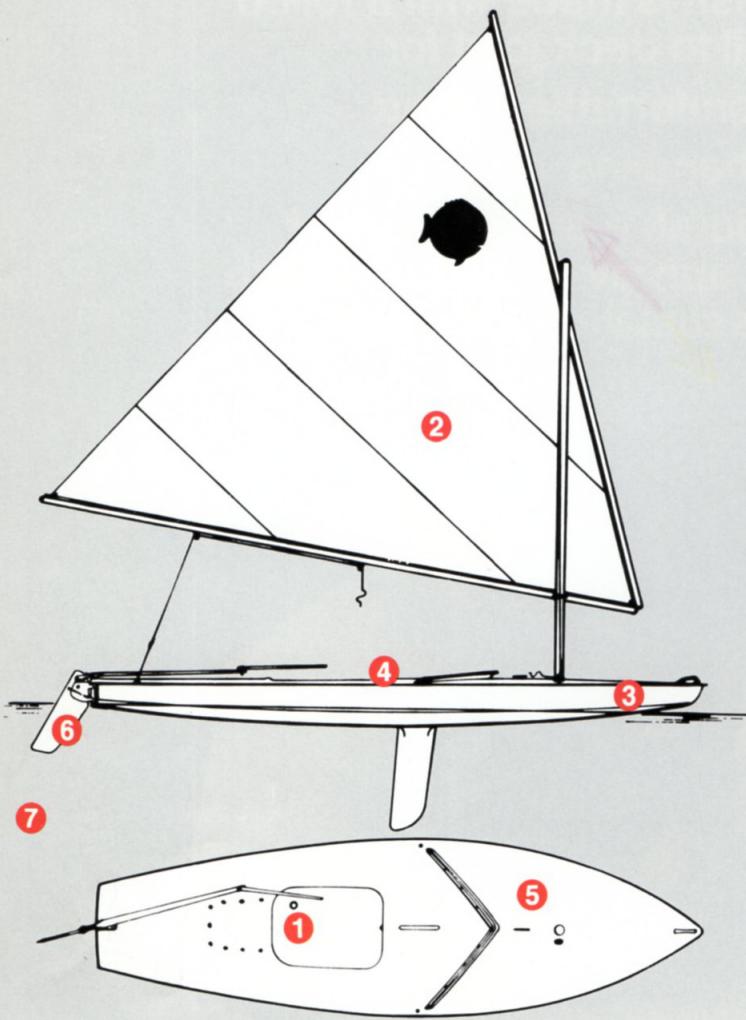

- more comfortable sailing
- easier handling
- more durable and watertight
- and it is approved by the sunfish class association for racing

# Sunfish

# Sunfish

The world's most popular sailboat.

## Sunfish Specifications

Length overall	13 ft. 10 in.
Beam	4 ft. 1 in.
Sail area	75 sq. ft.
Hull weight	129 lbs.
Crew capacity	500 lbs.

## Sunfish The highlights.

- 1 **A bigger cockpit than ever**, now with a hiking strap standard and non-skid molded in so you don't slide around.
- 2 **A very simple sail plan allows you to rig and be sailing in minutes.** And choose your own sail color from a wide selection.
- 3 **Durable maintenance-free finish.** Tough gelcoat over hand laid-up fiberglass. Takes the hard knocks that come with learning.
- 4 **New rolled flange hull to deck joint.** Rounded edges make for more comfortable sailing. The boat is easier to carry and the hull to deck seal is more watertight.
- 5 **Foam blocks bonded** to the inner hull make the boat virtually unsinkable.
- 6 **Kick-up rudder.** There is no better design when you want to run the boat right up the beach or cruise over shallow areas.
- 7 **Invisible advantage.** Sunfish has been building small sailboats longer than any other company. Our heritage and reputation stand behind every boat we build.
