

*The Wind is Free.*  
***Use It.***

 **Sunfish®**

**S**unfish brings out the best of sailing. Imagine the warm sun on your body, the wind in your hair, and the occasional cool spray just to remind you that it is all real. You're gliding across the water, powered solely by wind. The simple pleasures in life don't get any better than this. Enjoy exhilarating rides, sunset cruises, or quality time with a friend, mate or child. Anyone can do it, and the fun is limited only by your imagination.

Forgiving and simple, the Sunfish has only two lines. One to hoist the sail, and one to trim it. It's hard chines and low aspect sailplan combine to make a safe, stable performer that makes sailing easy and rewarding.

If your need for challenge beckons, the International Sunfish Class Association organizes over 1,000 events ranging from local gatherings throughout the U.S., to the Sunfish World Championship held annually in one of the 30 countries with active Sunfish fleets. Class activities add tremendous value to the Sunfish. What other boat offers such wide ranging options for fun?

Sunfish. More than just a sailboat. It's the world's most popular sailboat, and the original brand in sailing. Over a quarter million people have enjoyed the enriching experience of Sunfish ownership. Fortune magazine called it "one of the 25 best designed products in America".

The wind is free. Use it.
