SNARK®

Sunflower

If you're ready to become a sailor, the 11-foot Snark Sunflower is the way to start. Everything about sailing a Sunflower is easy and simple.

With the Sunflower's low price, she's easy to own. And her 50-pound hull, filled with unsinkable expanded polystyrene and covered with our exclusive, tougher-than-fiberglass Armorclad™ surface, is super light for car topping.

When you get to the water, the Sunflower rigs in just minutes. Simply insert the pre-rigged mast into its socket, raise the 55 square foot lateen sail and you're ready for sailing excitement.... Sunflower style.

The Sunflower has ample cockpit room for two sailors especially with the optional wooden sail seat amidships. The bow splashdeck keeps you dry plus provides a convenient storage area below. And when the day is done, the low maintenance Armorclad™ hull simply needs a rinsing off. Sunflower makes sailing simple and fun.

Sundancer

For those who get a thrill out of passing larger sailboats on the water, the 11-foot Sundancer offers a 60 square foot cat-rigged sail on the exact same hull design as the Sunflower. Both hulls are unsinkable, foam-filled polystyrene and Armorclad™, but the Sundancer is engineered for extra performance.

Even in light airs, the Sundancer dances crisply across the water. The high mast on the single sail reaches tall to catch extra wind. And just like her sistership, Sunflower, the Sundancer has plenty of room for two people.... even though it's easily handled by one.

With anodized aluminum spars and flashy Dacron sail, the Sundancer even looks racy. But, like

the Sunflower, she's easy to rig and sail.
The Sundancer is simple, fun and fast!

Sailing Manual

All Snark sailboats like the Sunflower and Sundancer come complete with all the sails, rigging and a 12-page sailing manual that tells you everything you need to know before you shove off. So, why wait? You can be sailing today!

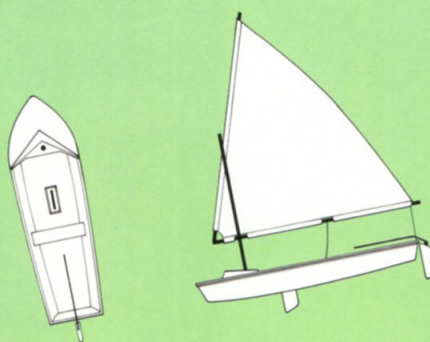

Sundancer

Specifications

Length: 11'
Beam: 42"
Sail area: 60 square feet
Capacity: 310 lbs. (2 adults)
