# 3 SAILING BOARDS

Complete Boat Kits with Dacron Sails and Hardware  
*Today's Greatest Sailing Values*

SUPER SAIL BOARD

**SAILING BOARDS.** Architects and boat editors have offered various versions of small sailboats in the form of plans for many years. The efforts of the Alcott Company and their popular Sailfish® have increased their popularity to the ready-made trade as well as the do-it-yourselfer. Sailboat manufacturers are grateful to the forerunners and the Sailfish® for the introduction of many customers into the popular sport of sailboating.

Because of the simplicity of the design and rig, many fiberglass enthusiasts have sought to duplicate these designs to gain entrance into the booming boat industry. Lack of experience and unsuccessful improvements in some of these models have disappointed many customers. The Taft Sailing Boards are a carefully designed sailers of all plywood with special consideration to cut favorably from materials to make one of the most economical and greatest values in the sailing board class. Breast hooks, mast partners, and transoms are completely machined of laminated woods. Frames are specially cut of marine plywood. Sides are ready-shaped from 1/2" marine plywood. Bottoms and rudder are mahogany. When treated for rot and fiberglass covered, they are one of the most durable and strongest of all boards. Aluminum spars included.

## SAILING BOARD PARTS SOLD SEPARATELY

**MAST** .. \$12.00      **SAIL** — 75 sq. ft. \$62.00 65 sq. ft. \$52.00

STANDARD SAIL BOARD SHOWN

# SAVE 2/3 BUILDING A

# PENGUIN

# FROM A

A Phil Rhodes designed (one-design) racing dinghy that attracts both amateurs and experts into one of the largest one-design classes in the world. This light, fast dinghy is an excellent beginner's boat and a favorite of the experts for year around racing summer series to frost-biting. Extremely popular with man-wife teams as its light weight permits easy transportation on a light trailer or cartop.

**THE TAFT PENGUIN BOAT KIT:** It is most desirable in a competitive Penguin to have an extremely light, strong boat. For this reason, all frame parts, rails, etc., are made from spruce selected from our large stocks of spar materials. This easy to work material makes the assembly of the Taft Penguin a cinch. Weight conscious builders will be able to hold weight at approximately 134 pounds with mahogany planking (fir planking 4 1/2 pounds additional). Transom is mahogany plywood, spruce reinforced, rudder and centerboard are of laminated spruce. Sides and bottoms are of 1/4" fir plywood (Philippine mahogany optional). Wide, maximum spray rails of spruce are included and floor boards are of 1/4" plywood. Frames are completely assembled of 3/8" select spruce with glued gussets. Chines, rails and knees are of select spruce. Fastenings are all brass with silicon bronze annular boat nails furnished for the planking. Spars are shaped and the mast routed for bolt rope. Kits include all wood parts with assembling hardware. Rigging, sails and paint not included. Kits include class registration and numbers and are shipped prepaid within the 48 states or to point of embarkation.

#### PRICE, Freight

Included	<b>\$274.00</b>
Mahogany	
Planking	<b>Extra 15.00</b>

#### Replacement Penguin Parts—

Mast	<b>\$52.00</b>
Boom	8.00
Rudder	10.00
Centerboard	10.00

**RIGGING—**In a one-design boat only a few options are tolerable in the rigging. With the Taft Penguin we offer what we believe is the finest rigging available to make the Taft kit a top performer. The Penguin has a loose-footed sail with a rotating mast and requires a means of stretching the sail along the boom while under way. This leverage is applied by either single blocks, double blocks, or a small winch. (See detail "A") Most adult crews find the single block satisfactory and the least expensive. (See option #1.)

It is also desirable to loosen the leeward mast stays in a Penguin to permit the boom to swing further forward. Provisions are made in the Taft rigging to release this stay by allowing the stay to slide forward on the stainless steel track when released by a small line cleated to the sides of the boat.

All rigging is stainless steel and bronze. Wood cleats are shaped and furnished unfinished. **PRICE, Complete Kit \$72.00**

With Double Block Outhaul	<b>74.00</b>
With Winch Outhaul	<b>79.00</b>

**SAIL KITS—**Although it is improbable that an amateur in his first attempt at sail making will produce a better sail than the most experienced sail maker, we feel with a Taft Sail Kit the beginner can produce a fine performing sail, enjoy a fascinating project and save considerable money.

Sail kits for Penguin include ready-marked and cut panels from 3.5 oz. American dacron, 2 1/4" bolt rope tabing, 3/8" dacron bolt rope, ready-cut gussets, aluminum headboard, battens and ready-cut batten pockets, sewn eyelets with brass grommets, dacron machine thread, hand sewing twine, needle and beeswax.

Modern dacron sailcloth does not stretch or pull like nylon and/or cotton and can be easily sewn on a home sewing machine. Although a modern zig-zag machine is desirable, a straight stitch is adequate. Seams on modern sail material are just lapped and double sewn. The fullness designed in the sail by our sailmakers is maintained by sewing the corresponding pieces on the curved lines drawn on the pre-cut panels.

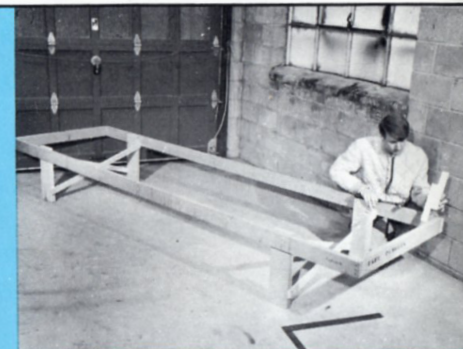

**COMPLETE KIT \$45.00**

**FIBERGLASS COVERING KITS** include 9 yards 8 oz. 44" fiberglass cloth, 1 1/2 gallons of resin with catalyst, 1 ounce thickener and 1 ounce ground glass.

**PRICE \$27.00**

**PAINT KIT** includes 1 quart Firzite, 3 quarts varnish and 2 quarts paint.

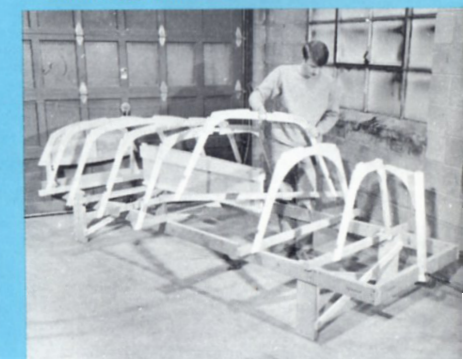

**PRICE \$15.00**

Master frame parts are included with the Taft Penguin Kit to assure its accuracy in assembling. Legs and rear 2x4 constructed from shipping crate by builder.

Sub-assemblies such as the transom and centerboard are glued and assembled. Transom is mahogany in keeping with fine boat traditions.

The factory pre-assembled and beveled frames are mounted in position as your boat shapes up quickly ready for planking.

# OK DINGHY

*FAST, EASY TO BUILD*

## SPECIFICATIONS

Length	13' 3"
Depth	22"
Weight	160 Lbs.
Width	60"
Sail Area	90 Sq. Ft.

Since 1953 the popularity of this inexpensive 13½ foot single-handler has extended from northern Europe into the United States and Canada and about the world. Few foreign one-design boats have run this gantlet so successfully. Even the most experienced and large boat skippers have claimed the OK Dinghy offers more sheer sailing enjoyment than any other class. Although not designed as a beginner's boat, alert young sailors and inexperienced adults can enjoy this lively sailer.

Every effort has been made to make this racing boat competitive. The Taft OK Dinghy will weigh about minimum and the addition of fiberglass to the hull will add about six pounds to its finished weight. All planking, decks and exposed plywood is of 1/10th face Philippine mahogany. Chines and deck framing are of Sitka spruce. Keel and side decks are preformed plywood. Centerboard and rudder are ¾" 7-ply mahogany plywood. Mast and boom are Sitka spruce with routed sail grooves and will require only hand finishing. Mast and boom hardwood inserts are available at extra cost.

Kits include all wood parts, mast, boom, centerboard, rudder, screws, bolts and glue. Not included is the metal sheet horse, sheet blocks, rudder pintles and gudgeons, halyards and centerboard lifting gear.

Characteristics are very similar to the Olympic Finn and the extensive research in this Olympic class is usually applicable to the OK. Fine details such as balancing the mast, sail, boat and skipper are feasible with this excellent kit. Even the most comprehensive hardware gear is not expensive for the OK Dinghy and a boat can be completed from this kit for under \$400.

**PRICE** as described above  
with registration number, Freight Included . . . . . **\$350<sup>00</sup>**  
Additional for hardwood inserts in mast and boom . . . . . **\$10.00**

# LIGHT, LIVELY SINGLE-HANDLER AT VERY LOW COST

## FIBERGLASS COVERING KITS

Kits include 7 qts. of Taft priming resin, 3 qts. of Taft finishing resin, 10 yds. of 44" — 10 oz. fiberglass cloth, 1 qt. of acetone solvent. Kits are mailed Express collect except when ordered with boat kits. Choice of white, yellow, blue, green, red . . . . . \$39.00

Black color . . . . . \$1.00 Additional

# JOIN WITH THOUSANDS WHO HAVE BUILT

The Blue Jay is a sturdy heavily braced one-design sailboat. Young beginners can handle its short rig confidently. All wood parts are of official materials of oak and mahogany. Planking is of  $\frac{1}{4}$ " fir marine plywood (mahogany extra), mast and boom are laminated Sitka spruce, decks are optional—either  $\frac{1}{4}$ " mahogany plywood or canvas covered fir. Centerboard and rudder are accurately machined of solid Philippine mahogany. The design, with its spinnaker gear, makes an excellent training boat. Price of kit includes registration and class numbers. Builders of this kit will have no problem in qualifying this boat for the many international regattas of this class boat.

# Build the Taft SNIPE FROM

**The World's Most Popular One-Design Sail Boat With New Modern Deck and Mast in Special New Kit Form!**

**Length 15' 6" Width 5' Weight 425 lbs. Minimum**

The Snipe was designed in 1931 by William F. Crosby for publication in "Rudder" magazine. Since this early date the Snipe Class has grown into the most popular one-design in the world. Many Snipe fans boast it as the best all-around small racing craft in existence.

The Snipe International Racing Association (SIRA) regulations permit the use of wood ( $\frac{3}{4}$ " solid planking),  $\frac{3}{8}$ " plywood or molded fiberglass in the modern Snipe. Most Snipes, amateur or factory-built, today are of plywood. The consistent winning in all major regattas of this type of construction has made it so popular and desirable that we have built one of the most modern and finest kits for this excellent boat.

This kit is so carefully cut and expertly designed that

even the youngest customers can assemble it to qualify to the exacting class requirements and to compete with the finest factory-made Snipes. Like other Taft kits, the Snipe does not require any extra jigs or frames and only as little as 30 hours is required to assemble for painting.

Builders will be amply rewarded by this most popular sailer as Taft Marine has performed the laborious portion of modern boat building and only the fascinating assembly is left to the builder.

Persons desiring to register their Snipe for local and national competition may make application to the SIRA, 655 Weber Avenue, Akron 3, Ohio, after the boat is ready for planking.

**Planking**—Pre-cut of 5 ply fir,  $\frac{3}{8}$ " full length marine plywood panels (mahogany extra)

**Stem**—22 ply fir shaped, beveled, and notched

**Frames**—Special design (SIRA approved) of  $\frac{3}{4}$ "—7 ply "Crezon" (plastic coated) plywood incorporating deck frames and building supports to eliminate building jig

**Keelson**—13 ply pre-formed and shaped

**Rails**—Select spruce and mahogany. Chines and clamps are cut, beveled, and drilled for accurate assembly

**Decks**—Attractive popular new curved design for comfortable hiking of beautiful mahogany with mahogany trim

**Rudder**—Shaped  $\frac{3}{4}$ "—7 ply plywood

**Mast & Boom**—Special Sitka spruce mast is glued, routed, and semi-finished requiring only hand sanding and finishing. Boom is flat type routed for dacron sail

**Center Board**—Dagger type shaped from  $\frac{3}{16}$ "—6061-T6 aluminum

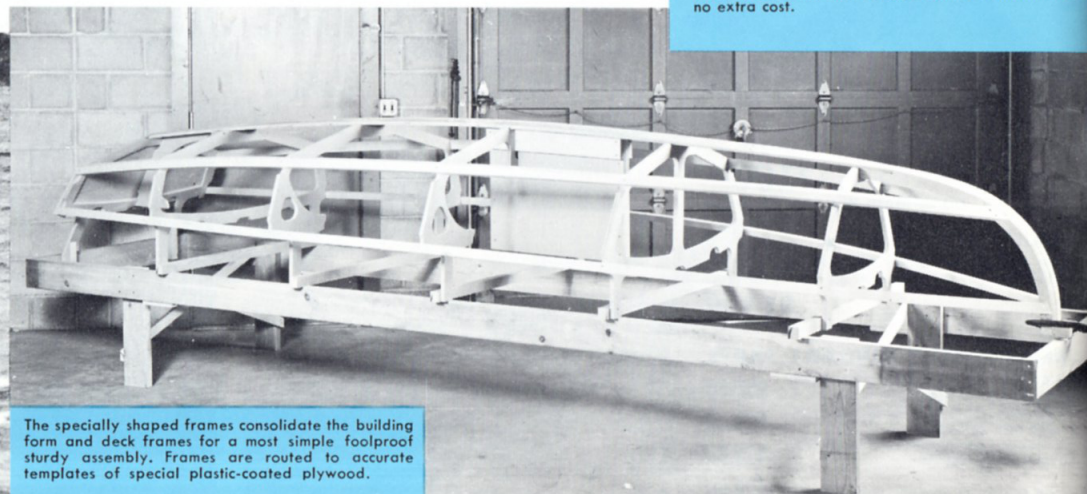

**Transom**— $\frac{3}{4}$ "—7 ply mahogany plywood shaped, beveled, and notched

If you are one of the 60,000 persons who has assembled a Taft 210, you will find the Taft Snipe even easier. Frame parts are machined and beveled, to accurately and quickly assemble the above frame ready for planking.

All mahogany decks can be attractively varnished. Special rolled side decks are comfortable and attractive. Special aluminum dagger board is furnished at no extra cost.

The specially shaped frames consolidate the building form and deck frames for a most simple foolproof sturdy assembly. Frames are routed to accurate templates of special plastic-coated plywood.

# A PRECUT BOAT KIT

## SNIFE BOAT KIT

Complete boat kit including pre-cut wood parts, semi-finished mast and boom, aluminum dagger board, fastenings, and glue. Sails, running and deck hardware, shrouds and halyards not included. **PRICE, Freight Incl.,**

**\$460**

**Optional Equipment**—Ted Wells round mast—\$15.00 add'l.  
Mahogany Planking—\$20.00 add'l.

Snipe Sails—complete with batten, number, and sail bags.

**PRICE \$120**

**Frame Kits**—A complete frame kit to include ready-cut frame parts as shown in the above illustration as well as the deck battens and frames. Frame sizes are for 3/8" plywood planking and are preferred by those having available special plywoods. Price includes instruction sheet and freight. **PRICE \$200**

### REPLACEMENT PARTS FOR SNIPE

**Mast**—Sitka spruce, solid round carefully machined sail and halyard grooves, semi-finished as supplied with Taft kits. **PRICE \$59**

Additional for Ted Wells round mast **\$20**

**Boom**—Grooved Sitka spruce, semi-finished as supplied with Taft kits. **PRICE \$20**

**Aluminum Center-board**—5/16"—6061-T6 aluminum with unfinished mahogany handle as supplied with Taft kits. **PRICE \$57**

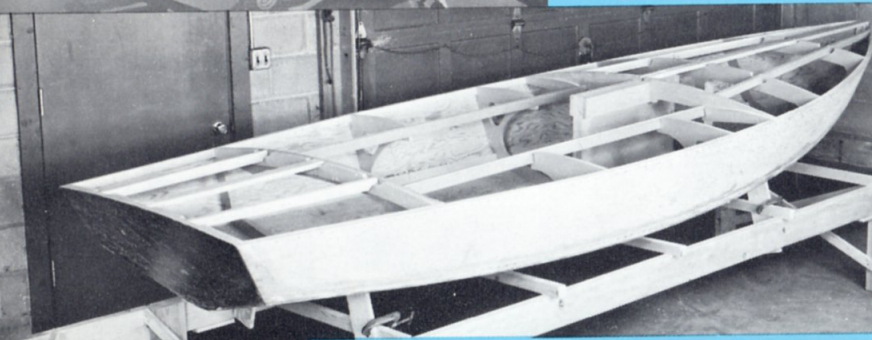

### QUALITY SNIPE COVERS

Carefully designed cover of 12 oz. mildew protected pearl-grey duck to be used for both mooring or trailering to protect the entire deck. Complete with brass grommets and zipper.

**PRICE \$46**

**Cockpit Cover**—Closed front to fit over the boom (not shown).

**PRICE \$25**

Shown ready for the all mahogany decking, the hull may be protected with a fiberglass seam kit or a complete fiberglass kit.

**Fiberglass Seam Kit** including 40 ft. of 3" tape, 18 ft. of 8" tape, and 2 qts. of resin. **PRICE \$850**

**Complete Fiberglass Kit** including 12 yds. of 50" cloth, 3-1/4 gals. of resin, 1 qt. of acetone solvent, 1 oz. resin thickener. **\$46**

## HARDWARE KIT for the SNIPE SAILBOAT

### STANDING RIGGING

- (1) 2 Stainless Shrouds 3/32" Jaw & Eye
- (2) 1 Stainless Bow Stay 3/32" Jaw & Eye
- (3) Mast Hound (4 Special Tangs & Bolt)
- (4) 2 Stainless Chain Plates (4")
- (5) 1 Stainless Channel Plate
- (6) 3 Stay Adjusters & Pins
- (7) 1 Mast Sheave (Opt. with Halyard Tube)
- (8) 1 Gooseneck & 12" Track
- 2 Stainless 3/4" Clevis Pins & Keys
- 1 Stainless 1/2" Clevis Pin & Key

### RUNNING RIGGING

- (9) Main Halyard—1/16" Stainless—Tube (Opt.), Ball, 2 Thimbles, Shackle, Halyard Hook
- (10) Jib Halyard—1/16" Stainless—2 Balls, 1 Snap, Jib Pulley & Strap, Halyard Hook
- (11) 40 Ft. 1/4" Main Sheet Rope
- (12) 30 Ft. 1/4" Jib Sheet Rope
- (13) 1 Racing Block
- (14) 1 Becket Block with Shackle
- (15) 1 Deck Strap
- (16) 1 Boom Bail

### RUNNING RIGGING (Cont.)

- (17) 1 Traveler Rig
- (18) Wood Cleat (Two 2" x #10 Screws)

### DECK HARDWARE

- (19) 2 Lengths 12" Track

- (20) 2 Jib Sheet Leaders—Adjustable
- (21) Wood Cleat (Two 2" x #10 Screws)
- (22) 1 Pr. Gudgeons
- (23) 1 Pr. Pintles
- (24) 2 Deck Plates
- (25) 2 Deck Straps
- (26) 4 Ft. 1/4" Line

### RACING VANG (Optional)

- (27) 3 Deck Straps
- (28) 2 Racing Blocks
- (29) 1 Becket Block
- (30) 2 - 1/4" Dacron Lines (10' & 4' Long)
- (31) 1 Wood Cleat (Two 2" x #10 Screws)
- (32) 1/4" Shock Cord—40" Long
- 1 Hank of Linen Line

### FASTENING CHART

- 13—1-1/4" x #10 Truss Head Bolts
- 16—1-1/4" x #8 Truss Head Screws
- 6—2" x #10 Flat Head Screws
- 14—3/4" x #8 Truss Head Screws
- 2—1/4" x 1-3/4" Truss Head Bolts
- 8—1/2" x #6 Truss Head Screws
- 3—3/4" x #5 Flat Head Screws
- 3 (5), 4 (8), 2 (16), 2 each (23)
- 4 (8), 2 (15), 2 each (27), 2 each (25)
- 2 (18), 2 (21), 2 (31)
- 3 each (19), 4 each (22)
- 1 each (4) 4 each (24) 3 (71)

### COMPLETE HARDWARE KITS

including quality stainless hardware with stainless shrouds and deluxe swaged fittings.

**COMPLETE KIT \$7900**

**RACING VANG** complete with blocks, line, and shock cord

**\$12 add'l.**

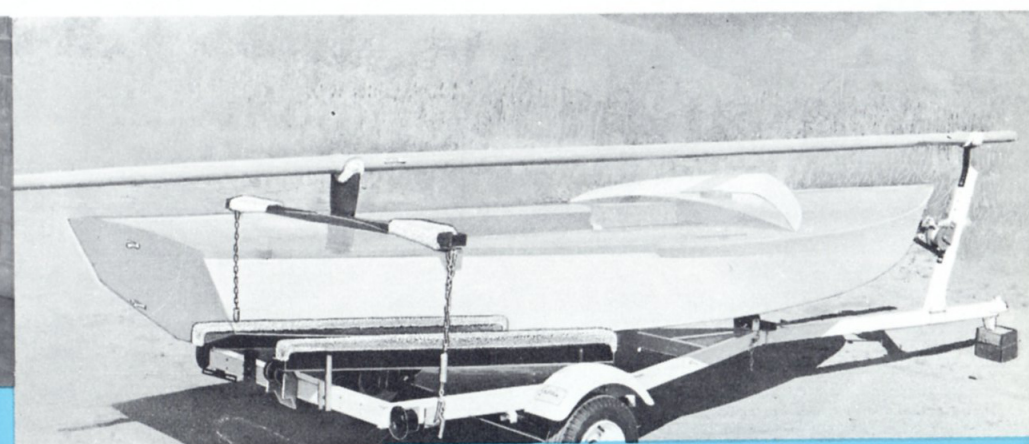

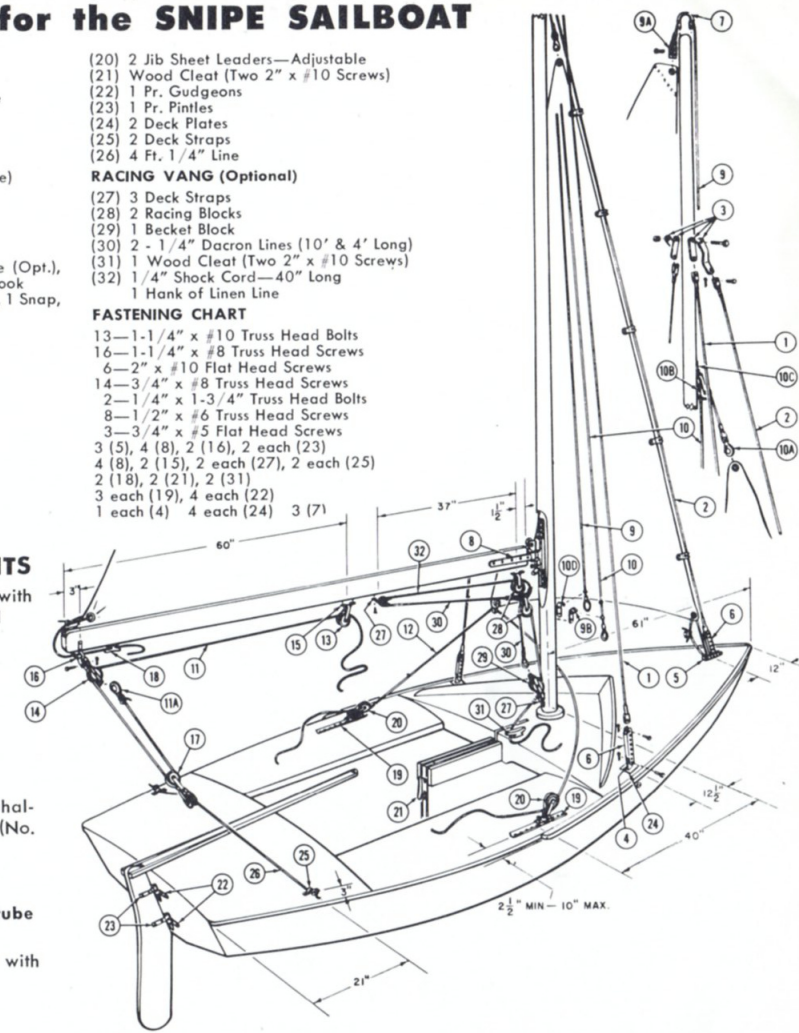

1/16" stainless steel main and jib halyards as listed above with fittings (No. 9 & 10).

**PRICE \$23**

**PRICE \$25 with halyard tube**

Set of 3/32" stainless steel shrouds with swaged forks and eyes.

**PRICE \$24**

**STURDY TILT-ACTION FRAME TRAILER** with special tongue and winch stand for Snipes. Spring-clamp and hold-downs designed for Taft and similar Snipes. Complete with mast supports and winch. **Freight Included. \$169**  
Same as above except 12" wheels. **\$189, Freight Included.**

# For All Family Fun Build and Sail The

# Taft

## 19 Ft. Center Board Sloop

L.O.A. 19'0"

Beam 6'6 1/4"

Weight 700 Lbs.

*An ideal family boat that will hold a half dozen people comfortably and permit them to move about safely.*

The Lightning One Design numbers over 3500 with 300 charted fleets throughout the world. Small enough to be easily trailered and in economical kit form will fit many budgets. The Lightning handles easily for all ages and is sufficiently fast for good racing.

Only after many years has the Lightning Association approved the use of plywood planking in the Lightning. The use of plywood as a planking material makes its construction far more practical for the home builder. We have made every effort and feel this plywood Lightning a competitive racing boat to the wood or glass boat offered today.

This new approved plywood version of the Lightning has 3/8" 5-ply sides and bottoms of attractive mahogany (\$20 additional) or fir. Decks are 5/16" fir plywood canvas covered. Frames are Sitka spruce and are furnished assembled and beveled. Half-frames are pre-cut and assembled as installed. Transom and centerboard well are of mahogany plywood and all exposed trim is of mahogany. Seats and floorboards are of cedar.

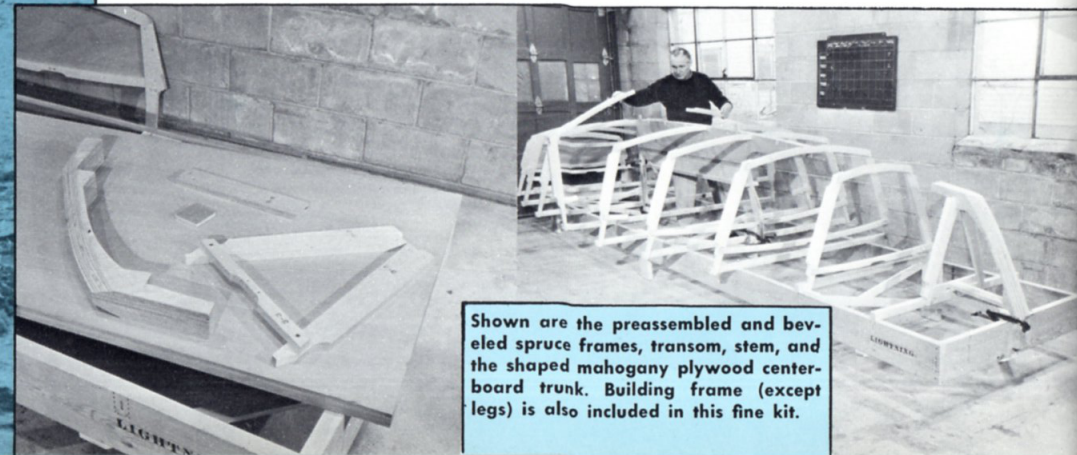

Mast and boom are select Sitka spruce spar stock. The hollow mast is ready-glued and will require only hand finishing. The "T" boom is machined but not assembled. Complete jig parts are furnished for assembling the kit. Centerboard is shaped of 5/16" 60 61 T6 aluminum and the rudder is of 3/4" 7-ply mahogany. Silicon bronze nails and brass screws are used throughout.

Complete kit includes all ready-cut parts, semi-finished mast and boom, aluminum centerboard, building frame, screws, fastenings, glue, registration and instructions.

(LESS SAILS AND HARDWARE) .....\$695.00

### REPLACEMENT LIGHTNING PARTS AS SUPPLIED WITH KITS

	Freight included
LIGHTNING MAST ONLY — SEMI-FINISHED .....	\$105.00
LIGHTNING BOOM "T" — SEMI-FINISHED .....	\$ 22.00
ALUMINUM CENTER BOARD .....	\$ 64.00

Shown are the preassembled and beveled spruce frames, transom, stem, and the shaped mahogany plywood centerboard trunk. Building frame (except legs) is also included in this fine kit.

# LIGHTNING

## SAILS

American made in our own lofts of Howe and Bainbridge 3.8 oz. dacron. Complete with insignia, numbers, royalty, battens, sail bag and slides. Sails are hand finished. Price.....\$200.00

## SPINNAKER

Choice of red and white or blue and white nylon spinnaker complete with sail bag. Price.....\$70.00

## FIBERGLASS COVERING KITS

Recommended for smooth hard racing surface. Epoxy or urethane finishes are recommended on top of glass. Kits include 18 qts. of resin, 13 1/3 yds. 60" 10 oz. cloth, resin thickener, solvent and hardener. Price.....\$78.00

## HIKING STRAPS

3 nylon straps to attach athwartships, complete with adjustable brackets. Price.....\$16.00

## BOAT COVERS

Custom cover of 10 oz. Otis Permasol pearl finish army duck with zippered front. To be used in trailering or mooring. Drawstring and fastenings included. Price.....\$64.00

## TRAILERS

Special longer tongue adaptation of our popular Snipe trailer for this longer and heavier boat. Special hold-down supports the mast and choice of two tire sizes is offered. Price — 8" Wheels.....\$169.00 12" Wheels.....\$189.00

The Lightning offers comfortable seating and cock-pit arrangement. The Taft kit includes canvas decking to comply with the Lightning class specifications.

## LIGHTNING HARDWARE

The equipping of a Lightning with proper hardware is most important. Hardware shown is of finest quality stainless steel and riggings are carefully chosen from the boats of some of the nation's best Lightning skippers. Options are offered in running hardware and either is recommended.

FREIGHT  
INCLUDED

*For a Lifetime of Canoeing Pleasure*

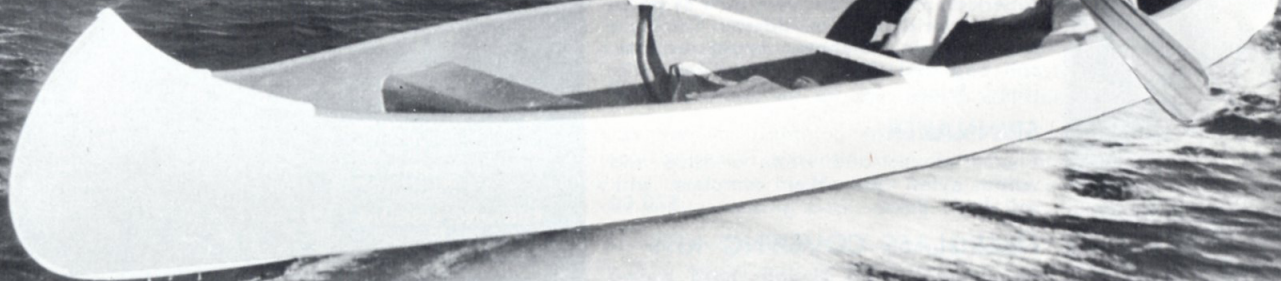

## ALL FIBERGLASS CANOE

Length 16'—Depth 13¼"—Width 36½"—Weight 64 Lbs.

No strength or performance was sacrificed in offering this fine canoe in kit form. Economies derived from this design and production plus economical shipping costs account for its great value. Patented keel and bottom features found only in the popular Taft Voyageur canoe line (not kits) are incorporated in this kit. To make this kit available to the entire domestic market, Taft pays the freight within the 48 States or to point of embarkation on foreign shipments. Complete illustrated instructions are included and even the most inexperienced builder will find no difficulty in completing this canoe in a single evening. Choice of exterior colors are: white, tangerine-red, blue, or olive drab. Interior may be left natural or painted, if desired. Carrying yoke—optional.

**PRICE (Freight included) \$159.00**

**YOKE \$15.00**

Nine fiberglass sections and complete materials will complete this unusual kit ready for the water.

Special tape is provided to tape the accurately trimmed sections together prior to final assembly.

Pre-cut fiberglass mat permanently bonds sections into one piece. Note: Special patented bottom design.

Two complete halves are bonded together with mat and resin to form a sturdy hull.

Breast plates, thwarts, and seats are attached to complete this ultra-strong, ultra-light weight hull.

When ordered with canoe . . . 159.00

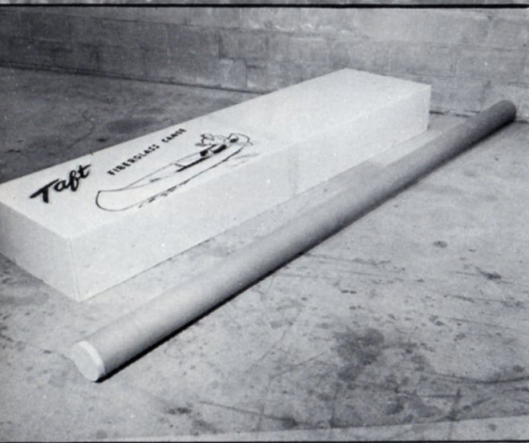

For Taft Voyageur

fiberglass canoe only . . . 149.00

**Universal model for most canoes \$169.00**

Additional for colored sails . . . 7.50

Prices include freight within the 48 states.

# EL TORO

*Taft*

## MOLDED FIBERGLASS OR WOOD

The Lightweight (Hull 60#), the mobility, and the excellent sailing ability of this boat is responsible for its rapid growing popularity. Despite its modest length the El Toro has won the respect of good sailors in senior, intermediate, and junior classes. Fleets of El Toros have extended across the entire country.

### TRADITIONAL MAHOGANY

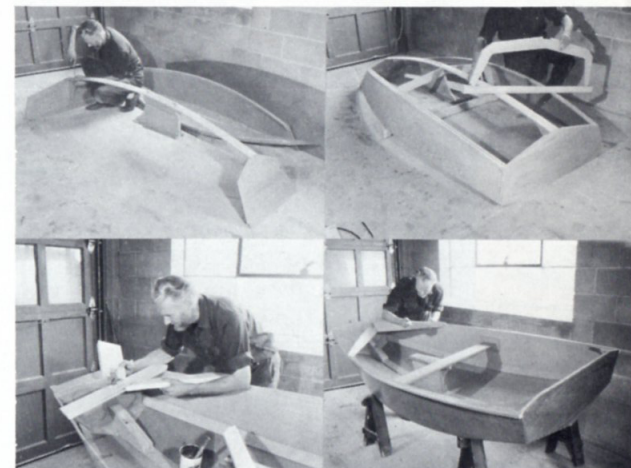

The most modern plywood techniques are used in the construction of this fine kit. Sides and bottoms are accurately cut from mahogany marine plywood. All wood trim, rudders, and centerboards are from Philippine Mahogany. Bow boards and transoms are of mahogany marine plywood. Chines and keelsons are molded to shape from laminated woods. Keels are of oak. Masts and booms are shaped and routed from Sitka spruce spar stock and will require only hand finishing.

Building fixtures are included to assure accuracy to meet the exacting class qualifications. Boats are shipped complete with class registration, quality stainless hardware, sheets, and illustrated instructions.

PRICE LESS PAINT AND SAILS

**\$180<sup>00</sup>**

FREIGHT INCLUDED

### MOLDED FIBERGLASS

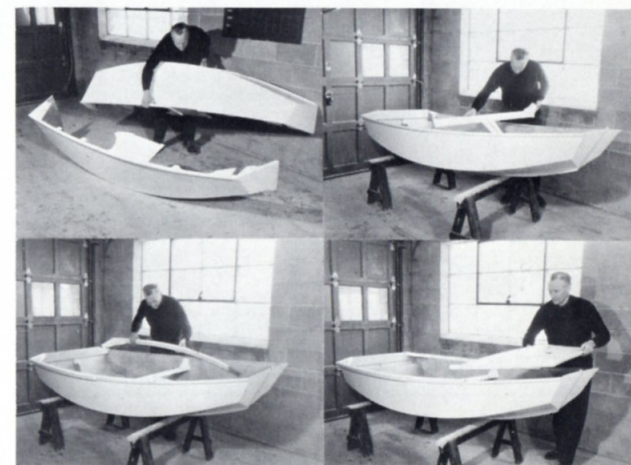

Kit includes fifteen accurately molded fiberglass parts in choice of four brilliant colors. Fastenings and bonding materials are included to assemble this competitive racing boat in a single weekend. Decks, rails, knees, seats, and flotation chambers are molded fiberglass. Unfinished mahogany rudders, centerboards, and tillers are included. Masts and booms are of Sitka Spruce spar stock shaped and routed and will require only hand finishing. (Finishing materials for wood parts not included. See paint kits). Boats are shipped complete with class registration, stainless running hardware, sheets, and illustrated instructions.

State choice of color, tangerine red, blue, white or yellow. Add \$5.00 for different colored decks and rails.

PRICE LESS SAILS

**\$225<sup>00</sup>**

FREIGHT INCLUDED

## SAILING SURFER

The exciting combination of two very popular sports, sailing and surfing, offers a new fun to all followers of either sport.

Although this type of sail has been used in Ice Skate sailing for many years, its application to a surfboard is quite new.

This type of sailing is exceptionally fast and speeds in excess of 25 knots have been reported. The wishbone type sail is fully swiveled on the boat and is held erect only by the operator standing on the board. The board is steered without a movable rudder by tilting the sail forward or aft thus moving the center of effort fore or aft of the center of lateral resistance causing the boat to turn.

This complete kit for this unsinkable boat includes precut wood backbone and ready shaped polyurethane foam hull parts which are assembled and covered with two layers of 10 oz. fiberglass cloth. Special sanding resins are included to give a mirror-like surface. Spruce mast and preformed booms require only finishing. Centerboard and skeg are of mahogany. Sails, hardware, finishing material and instructions included. Price, freight included

**\$239<sup>00</sup>**

**FULL SIZE PLANS.** Complete plans with full size drawings for hull wood and polyurethane parts with complete sail plan and instructions. Price postpaid

**\$18<sup>00</sup>**

**KIT ASSEMBLING AND SAILING INSTRUCTIONS**

Price

**\$1<sup>00</sup>**

### REPLACEMENT PARTS FOR TAFT SAILING SURFER

Dacron Sails . . . .	\$70.00
Semi-Finished Mast . . . . .	\$22.00
Semi-Finished Boom (Pr.) . . . .	\$26.00
Boom Hardware . . . .	\$ 4.00
Mast Gooseneck & Track . . . . .	\$ 9.00

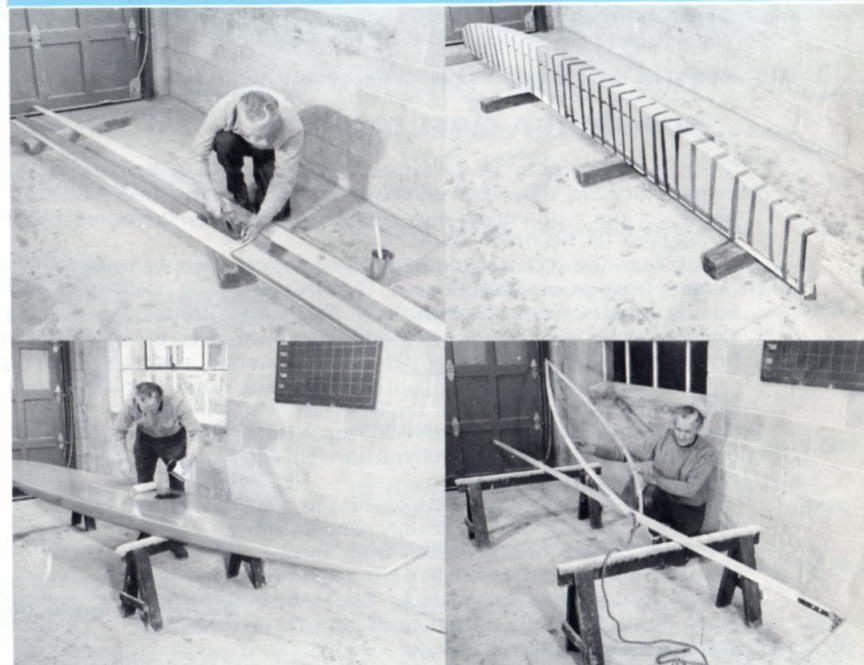

### SPECIFICATIONS

Length . . . . .	14'
Width . . . . .	28"
Depth . . . . .	4 5/8"
Sail Area . . . .	52 Sq. ft.
Draft (Board Down) . . . . .	28"
Mast . . . . .	14'
Booms . . . . .	8'
Weight . . . . .	60 Lbs.

### HOW IT IS BUILT

(1) Preshaped wood strong backs form the centerboard and rudder wells and reinforce the all foam core. (2) Precut foam hull parts are cemented to the strong back and wood reinforcing is glued into the precut deck dados for extra strength where the operator stands. (3) Two layers of 10 oz. fiberglass and special sanding resin protects this unsinkable hull. Colorful epoxy coat-

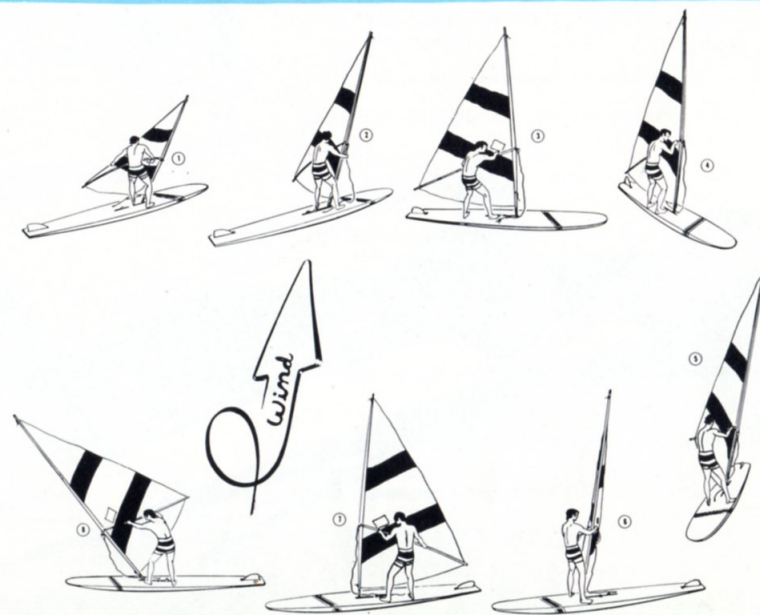

ings are also included. (4) Spruce mast is routed to receive the special sail. Prebent booms of laminated spruce and will require only sanding and varnishing. Kits are complete including sails, hardware, varnish and paint. Special sails include battens and are cut of colorful dacron. Mast and boom hardware is of stainless steel.

### HOW IT IS SAILED

(1) The floating sail is hoisted from the water with a lanyard attached to the boom and mast intersection. (2) Supporting the mast at the fore ends of the boom and using the weather-vaning sail as a lever the operator turns the hull to sailing position with his feet. (3) From the windward side the skipper can turn the surfer off the wind by dipping the sail forward and windward by

dipping the sail aft. (4) Tacking — Skipper lowers boom to turn windward. (5 & 6) Sailor steps around the fore side of mast using sail as a lever brings the hull about with his feet. (7) Operator raises boom to shift sail forward. (8) Sail is neutralized to maintain desired tack heading.

# Build the Exciting DN Ice Yacht

## One of America's fastest growing one-design class racers

Since the development by the armed forces of comfortable winter clothing, many Americans in the Northern states are enjoying the exciting sport of ice boating. Most enthusiasts prefer to join with others and compete in regattas sponsored by the various clubs throughout the Northern states.

Taft Marine has chosen one of the most popular class ice boats to offer in kit form or completely painted in KD form. The DN single class (Detroit News) frequently attains speeds of over 80 mph. With Taft's high production machinery and woodworking facilities, we can offer our customers pre-machined mast, boom, and other vital parts of hard to get materials at attractive savings.

Those not interested in competitive ice boating would be pleased with the performance and speed of the DN class. The DN (Detroit News) single class boat exceeds speeds of 80 mph. Boats built from kits or complete KD meet all requirements for registration in this restricted one class design.

Masts and booms are ready glued and routed of Sitka spruce for sail and will require only hand finishing.

Runner planks are laminated from spruce and are shaped ready to sand. Fuselage parts are ready cut of quality spruce with plywood decks. The entire boat when finished may be carried easily on car top carriers.

Ready pre-finished parts are shaped, sanded, drilled, and painted with clear epoxy paint and require only assembling and attaching hardware.

NOTE: The instruction book included with this model boat kit is available to prospective customers to note our simple unique procedure. Mailing cost—\$1.00 (Refunded with kit order)

Spare pheasant feather..... \$1.00

**SPARFLY.** A new idea for spotting wind changes. For spar top mounting. Indicates on any angle of heel in the lightest air. Red.

PRICE ..... \$6.95  
Replacement Vane ..... \$1.75

**TEL-O-TAILS (Left).** Red and green port and starboard indicate wind direction from the shrouds. Easily removed. Chrome plated.

PRICE ..... Pr. \$4.50

**WIND-TELS (Right).** Attaches to shrouds. Fine needle bearing for maximum sensitivity.

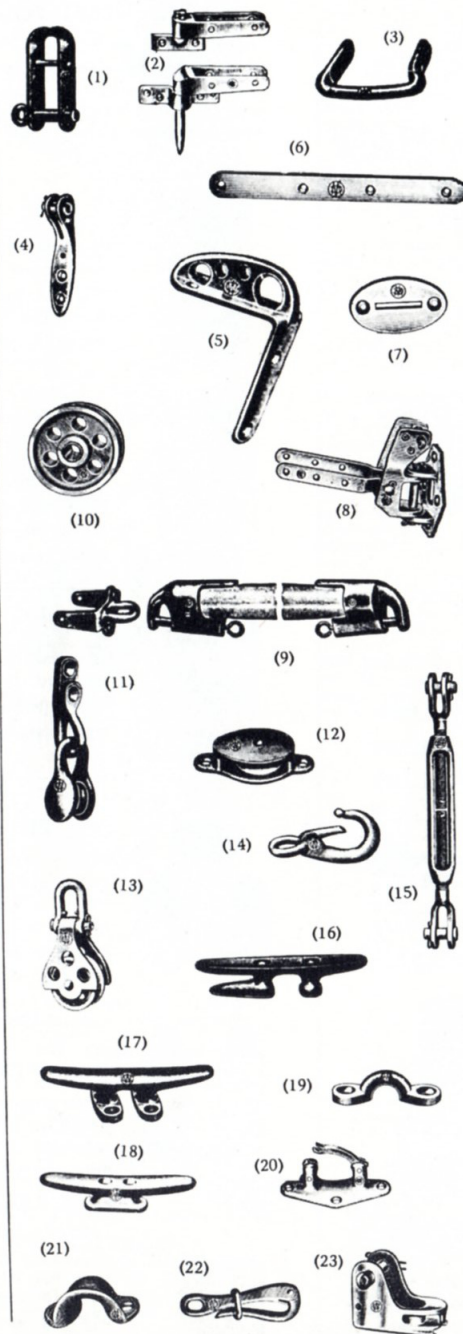

PRICE ..... \$6.95

**TELO-HIKER.** A fiberglass racing tiller extension with universal ball joint which adjusts to all sailing positions above the deck. Easily trimmed to proper length. A simple foolproof Velcro-lock secures hiker to tiller when not in use. Extra Velcro pads available at \$1.75 per set.

PRICE ..... \$9.95

## QUALITY BRONZE HARDWARE

Bronze hardware. Very popular with Blue Jays and other boats where weight is not an essential problem.

(1) JIFFY HALYARD SHACKLE (Burnished Brass) with "no lose" pin..... \$1.50

(2) SELF LOCKING RUDDER FITTINGS (Cast Brass) for 3/4" rudders..... \$6.00

(3) BOOM BAILS — "T" or rectangular booms... \$ .90

(4) MAST TANGS (Manganese Bronze) 3 1/2".... \$1.20

(5) STEMHEAD PLATE (Burnished Manganese Bronze) Holes for both jib stay and head stay and towing eye..... \$3.00

(6) CHAIN PLATES (Rolled Bronze)  
Length 7" ..... \$1.65  
Length 10 1/2" ..... \$2.05

(7) FINISHING PLATES (Burnished Bronze) for chain plates to 1" wide..... \$ .60

(8) FIXED TYPE GOOSENECK for 7/8" to 1 1/4" booms ..... \$7.50

(9) SPINNAKER POLE SOCKET (Bronze) for 1 1/8" rope ..... Set \$11.10

(10) MASTHEAD SHEAVES (Bronze) 2 3/8" x 1 1/2" for 1/8" metal halyards only..... \$2.70  
(Nylon) for rope halyards 2 1/2" x 7/16"..... \$ .30

(11) JIB HALYARD BLOCK (Manganese Bronze) for 1/4" rope or wire halyards..... \$2.75

(12) CHEEK BLOCKS (Burnished Brass) 1/4" rope... \$1.65

(13) OPEN SHELL BLOCKS (Burnished Bronze) With Nylon sheaves ..... \$3.00  
With becket ..... \$4.25

(14) BOAT SNAPS (Burnished Bronze) Size 0

(15) OPEN TURNBUCKLE (Forged Bronze) 1/4".... \$5.00

(16) JAM CLEAT (Cast Bronze)  
Length 3" for 1/4" rope..... \$1.10  
Length 4" for 5/16" rope..... \$1.60

(17) STANDARD CLEAT (Burnished Bronze)  
Length 4" for 1/4" and 5/16" rope..... \$1.25

(18) SPAR CLEAT (Cast Bronze)  
Length 2 3/4" for 1/4" rope..... \$ .90  
Length 3 1/4" for 5/16" rope..... \$1.20

(19) EYE STRAP (Burnished Bronze) Length 2".... \$ .18

(20) LATCH MOORING CHOCK (Burnished Bronze) Length 4 3/4" ..... \$7.90

(21) LIP LEADERS (Burnished Cast Brass) Opening 1/2" ..... \$ .50

(22) PELICAN HOOK Length 4"..... \$3.00

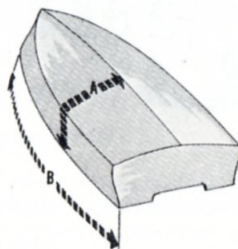

(23) CLEW OUTHHAUL (Cast Bronze) for 3/8" sail track ..... \$3.20

## HOW TO MEASURE

Measure from the keel to the gunwale at the widest point (Fig. A). Add two to four inches for overlap to determine the most economical width of cloth.

Measure the length from the stem to stern along the gunwale allowing four to six inches for overlap (Fig. B). Multiply this measurement by two for the total length of cloth for both sides. Narrower boats may require only one length of material. To cover the back of the boat, allow 3 inches to lap over the sides and bottoms.

## FIBERGLASS COVERING KITS

MODEL	CLOTH	RESIN	SOLVENT	THICK- ENER	GROUND GLASS	PRICE
Standard Sailing Board	8 yds. 38 1/2"	1 gal.	1 qt.	1 oz.	1 oz.	\$ 20.00
Deluxe Sailing Board	9 1/3 yds. 44 1/2"	1 1/4 gals.	1 qt.	1 oz.	1 oz.	24.00

Lightning	13 1/3 yds. 60 1/2"	4 1/2 gals.	2 qts.	1 oz.	1 oz.	78.00
Thunderbird	18 yds. 38 1/2" 17 yds. 44 1/2"	8 gals.	3 qts.	4 oz.	4 oz.	120.00

## REPAIR KITS

Kits include 1 yd. of 44 1/2 in. fiberglass cloth, 1 qt. of clear resin with hardener, and 1 oz. of ground glass fibers. Kit will make permanent repairs on fiberglass as well as wooden boats.

PRICE—No. F1002 .....\$4.00

## SEAM COVERING KITS

Kits include 50 ft. of 3 in. chrome fiberglass tape and one quart of clear resin with hardener which will provide leak-proof protection on the plywood seams only.

PRICE—No. F1000 .....\$5.50

# FIBERGLASS SUPPLIES

## TAFT POLYESTER RESINS

Taft Polyester Resins are formulated in three types. All three are of low viscosity, rigid type, and are especially designed for hand lay up techniques, wooden boat coverings, etc. All types contain promoter and are catalyzed with 1% methyle ethyl ketone peroxide. Price includes resin and catalyst (hardener).

### GREEN LABEL

Is a rigid polyester resin air-inhibited to set up with a slightly tacky surface. Perfect bonds are possible with subsequent coats without sanding. Final coats should be of our red label finishing resin.

PRICE (Hardener included) .....\$2.25 per qt.

PRICE (Hardener included) .....\$7.90 per gal.

### RED LABEL

Is a special finishing resin to provide a hard, tough surface resistant to blushing after long periods of immersion in water. Subsequent coats may be added by sanding. This resin can be polished to a high luster.

PRICE (Hardener included) .....\$2.25 per qt.

PRICE (Hardener included) .....\$7.90 per gal.

### WHITE LABEL

Is a low viscosity semi-finishing resin which can be used as both a priming and finishing resin.

PRICE (Hardener included) .....\$2.25 per qt.

PRICE (Hardener included) .....\$7.90 per gal.

## POLYESTER RESIN COLORS

When added to polyester resin, these dense colors will retain their brilliance and resist blushing. Use 2 oz. per gallon of resin. Choice of colors: red, blue, yellow, white, green, black, and olive drab.

PRICE—2 Oz. Jar .....\$ .75

## CATALYST (Hardener)

Extra amounts of catalyst are necessary in temperatures below 70° or when rapid setting is required.

PRICE—2 Dram Tube .....\$ .20

PRICE—2 Oz. Graduated Bottle .....\$1.60

## SOLVENT

Used for cleaning brushes, hands, clothes, etc., of polyester resins. Must not be used for thinning resins.

PRICE—Qt. ....\$ .90

PRICE—Gal. ....\$3.20

## 1 1/2 OZ. FIBERGLASS MAT

Interlocking type mat used in building all fiberglass boats and when heavy sections of fiberglass are built up.

PRICE

50" .....\$2.00 per yd.

## 10 OZ. FIBERGLASS CLOTH

Woven by one of the largest and oldest glass weavers of fine Owens-Corning yarns. This extra heavy weight is recommended for boat coverings.

38 1/2 IN. ....\$1.40 per yd.  
44 1/2 IN. ....\$1.60 per yd.  
50 1/2 IN. ....\$1.85 per yd.  
60 1/2 IN. ....\$2.25 per yd.

## FIBERGLASS TAPES

Same weight yarns are used in this tape as are used in our heavy fiberglass cloth.

PRICE

2 IN. ....\$1.14  
3 IN. ....\$1.19  
4 IN. ....\$2.24  
6 IN. ....\$3.35

## GROUND GLASS FIBERS

Short 1/4" fibers are mixed with polyester resins to form a strong water-proof filler or putty for repairing wooden or fiberglass boats.

PRICE—1 Oz. Bag .....\$ .25

## POLYESTER RESIN THICKENER

This material is added to polyester resin to eliminate sagging and running on vertical surfaces. (Included in Taft Covering Kits.)

PRICE—1 Oz. Bag .....\$ .25

## PARTING FILM

This mold release permits pulling of green parts from new molds.

PRICE .....pt. \$1.50 — qt. \$2.25

## RESIN BRUSHES

Special resin brushes with unpainted to avoid staining resins and solvents with color handles.

PRICE—Two Inch .....\$ .60

# SAILMAKER SUPPLIES

# SAILS

**SAILS:** American made by Taft Spar & Sailmakers, a division of Taft Marine Woodcraft. These production cut sails offer highest quality at import prices. Sails include personalized sailbag, battens and registration numbers. All sails are sewn with most modern sail-making machines using Howe & Bainbridge stabilized dacron with nylon headboards and hand finishing. Additional for window in jib or main sail — **\$6.00.**

**SNIPER** Choice of full or medium cut Snipe 3.8 dacron sails with spun dacron boltropes, numbers, personalized sailbag and battens.

**PRICE \$120.00**

Extra for sails requiring sail slides  
**WINDMILL** 3.8 stabilized dacron sails in full or medium cut including personalized sailbag, battens and numbers. Also included are Windmill royalty tags.

**PRICE \$120.00**

**PENGUIN** Excellent quality 3 oz. dacron with personalized sailbag, battens and numbers.

**PRICE Only \$79.00**

**OK DINGHY** Very high quality competitive racing sail to balance Taft designed spars. 3.8 dacron with pre-stretched boltrope, nylon headboards and Cunningham holes. Complete with battens and racing numbers.

**PRICE \$96.00**

**BLUE JAY** Full cut Blue Jay sails of 3.8 dacron with bronze piston hanks and nickel silver sail slides. Also included are battens, personalized sailbag and registration numbers.

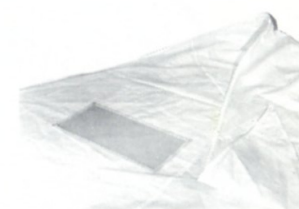

**PRICE \$120.00**

**BLUE JAY SPINNAKER** Attractive nylon parachute spinnaker in choice of red & white or blue & white.

**PRICE \$60.00**

**TAFT SAILING BOARD SAIL** 65 sq. ft. dacron sail. Also used on Sailfish and other sailing boards. Length along spars 13 ft. Choice of red & white or Blue & white.

**PRICE \$56.00**

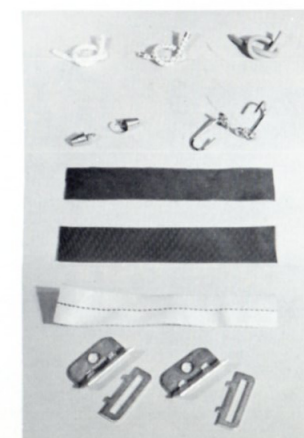

**SAIL INSIGNIAS & ADHESIVE MATERIAL** Adhesive back insignias for the most sails in red, blue, green or black.

**PRICE \$2.00 Per Pr.**  
Material as used above. 36" wide.  
**PRICE \$1.25 Per Ft.**

## CORDAGE

### SPLICEABLE BRAID (Nylon Covered Dacron)

Size	Breaking Strength	Price
3/16"	900	\$ .07
(Not spliceable)		
1/4"	2,000	.12
5/16"	3,000	.17
3/8"	4,000	.22

### SHOCK CORD Cotton Covered

1/8"	Per Ft. \$ .07

1 3/4" Nylon 6,500	.35

### HIKING STRAP BRACKETS

**PRICE.....Per Pr. \$1.25**  
As used with automotive seat belts.

(1) (2) **DACRON\* SAILCLOTH** 3.8 oz. stabilized dacron as used in America's finest sails.

18" Width **\$1.75 Per Yd.**  
36" Width **\$3.50 Per Yd.**  
Red, Blue or Gold

18" Width **\$2.10 Per Yd.**  
36" Width **\$4.20 Per Yd.**

**NYLON SAILCLOTH** 1.5 oz. nylon spinnaker cloth. Choice of red, white or blue. 40" Width **\$1.95 Per Yd.**

(3) **DACRON TAPE** Same as sailcloth. For binding and tabbing sails. 6.5 oz. 2" Width **\$3.35 Per Yd.**  
2 1/2" Width **\$4.00 Per Yd.**

(4) **HEADBOARDS** 1/8" nylon headboards. May be easily reshaped and drilled. 4 1/2" **\$7.50**  
6" **\$9.00**

(5) **NYLON TAPE** 3/4" nylon tape for reinforcing spinnakers, etc. **\$1.15 Per Yd.**

(6) **LINEN HAND THREAD** Waxed for sail repair, rope whipping and attaching sail slides. **Per Tube \$2.00**

(7) (9) **DACRON HAND THREAD** Choice of 5 or 7 strand dacron. Usually preferred to linen. **1 Oz. Tube \$7.50**

(8) **DACRON MACHINE THREAD** Specially prepared tube for home sewing machines. **2 Oz. Tube \$2.00**

(10) **HAND SEWING NEEDLES** #16 needles for the above hand sewing thread.

**Each \$2.20**

(11) **NYLON JIB HANKS** Easily attached to the jib luff wire with screws included.

**Each \$2.25**

(12) **SMALL BRONZE JIB HANKS** Piston type to be sewn to the jib luff wire with the above hand threads.

**Each \$4.00**

(13) **NYLON SAIL HEARTS** Small nylon thimbles for use with jib luff wires.

**Each \$1.18**

(14) **SAILOR'S PALM** All leather. Navy type.

**Each \$2.50**

\*Dacron is a DuPont trade mark of its polyester fiber

(15) **SAIL SLIDES** Nickel silver sail slides for 5/8" sail track. **Each \$1.15**

(16) **SAILMAKER'S SAIL HOOK** Swivel type.

**Each \$2**

(17) **BEE'S WAX** White wax for all hand sewing. **Per Cake \$1.15**

(18) **SEWN GROMMETS** Solid Brass rings and thimbles.

#3	1 1/2"	\$ .18
#4	5/8"	.20
#5	3/4"	.30
#6	7/8"	.40

(19) **SAIL MANUALS** "Make Your Own Sails" by Bowker & Budd. Covers phases of sail making. **\$3.15**

"Modern Sailmaking" by R. M. Taft. Sailmaking for the amateur. Covers step-by-step procedures in modern synthetic for Blue Jay, Penguin. **\$4**

(20) **SAILMAKER'S HOT KNIFE** Inexpensive hot knife for cutting and sealing edges of nylon and dacron sails.

**\$3.00**

(21) **GROMMET DIES** Special dies for setting sewn grommets. Prices on Request.

(22) **SAIL BATTENS** Fine tapered ash battens.

1 1/2" x 18"	\$ .45
1 1/2" x 24"	.60
1 1/2" x 30"	.80

(23) **SAIL WINDOW PLASTIC** Durable soft plastic for sail windows.

22" x 52" Sheets — **Each \$3**

(24) **SAIL REPAIR TAPE** Adheres instantly on contact to all sail materials. 25 Ft. 2" wide. Also for temporary numbers. White, red, green, gold, blue or black.

**Price \$2.50**

(25) **BOLTROPE** Special spun dacron 5/16" diameter.

**Price \$2.20 Per Ft.**

(26) **VINYL COVERED STAINLESS LUFF WIRE** For use on jib luffs. Wire size 3/32". **Price \$2.20 Per Ft.**

# BOOKS—WATCHES—COMPASSES

**"THE GLENANS SAILING MANUAL"** by Philippe Harle. 446 pages of drawings and step-by-step procedures from beginner through advanced techniques in sailing..... **PRICE Prepaid \$10.00**

**"SCIENTIFIC SAILBOAT RACING"** by Ted Wells. Snipe champion Ted Wells technically explains sailboat racing. A popular book in any Snipe library..... **PRICE Prepaid \$6.00**

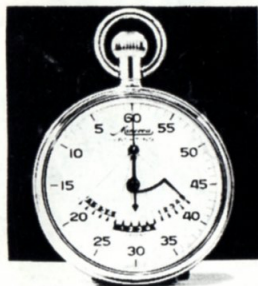

**"ICE BOATING"** by S. Calhoun Smith. One of the few books on this exciting sport by veteran ice-boater S. Calhoun Smith. .... **PRICE Prepaid \$7.50**

**"HAVE FUN LEARNING TO SAIL"** by Slocombe. A paper book for elementary sailors by Lorna Slocombe and George O'Day. .... **PRICE Prepaid \$ .75**

**"MAKE YOUR OWN SAILS"** by Bowker & Budd. Complete book on making sails by English sailmakers Bowker and Budd. Covers cotton and terylene sails..... **PRICE Prepaid \$3.25**

**"MODERN SAILMAKING"** by R. M. Taft. Step-by-step sailmaking for the amateur in modern synthetics. Includes detailed instructions of Penguin and Blue Jay sails..... **PRICE Prepaid \$4.25**

**"BUILDING A PLYWOOD SNIPE"** by Harold L. Gilreath. A complete detailed instruction book on building the Snipe. 99 pages and illustrations..... **PRICE Prepaid \$7.95**

**MINERVA STOPWATCH.** A favorite with sailors as the small hand registers 15 minutes. The three different colored five minute segments stand for warning, preparatory and start. Start, stop, flyback to zero by successive depressions of crown. Non-magnetic, 7 jewels, lever movement. Nickel chromium finished case.

..... **\$39.50**

**CHESTERFIELD STOPWATCH.** Start, stop, flyback from crown. Imported Swiss movement. Five minute register. Chrome finish. Not shown.

..... **\$14.95**

**RUBBER STOPWATCH COVER.** Protect stopwatch from moisture damage. Holes for use with lanyard.

..... **\$2.00**

**STOPWATCH LANYARD.** Braided nylon with non-rusting hardware. Not shown.

..... **\$ 1.25**

## ASSEMBLING INSTRUCTIONS

We have had many requests for information about the assembling procedure of our kits. Although this binding does not include working plans, the assembling procedures are carefully illustrated and some find them helpful in choosing or building a Taft or similar sailboat. Paperback includes over 100 pages and 300 photos of boat and sail making. Price..... **\$2 50**
