

the incredible

The Wabbit is a high speed performance Keel boat that is both fast and fun to sail. The rig is a tall, untapered, single-spreader, black anodised spar. It is supported by a six wire system, forestay, backstay, lower and upper shrouds. Hardware is Harken all around, with a mainsheet barney post. All necessary hardware and running rigging is provided. Halyards are internal; boom vang, cunningham, outhaul and backstay controls are part of the standard package. Main and 105% jib are provided as the standard sails.
