

All of the craftsmanship and integrity derived from 150 years of producing numberless boats - both power and sail - go into the Wianno Senior, known locally as "*the Senior boat.*"

Only a fortunate few can avail themselves of the prideful ownership of a Senior, as only four or five of the boats are turned out each year in the yards at Osterville. The finest materials obtainable are procured and assembled by eleven Crosby craftsmen whose combined years at the boat-building trade total over two hundred thirty years.
