In the era of the specialized machine, Yankee Yachts has created a unique cruising-racing yacht. Taking full advantage of the available volume in a superb new IOR quarter-ton design by Sparkman & Stephens, a very un-standard interior was developed which, without sacrificing necessary storage, provides an extraordinary amount of living space for people and their activities aboard. The Yankee 26 fully qualifies as a Quarter-ton IOR Mark III racer with the optional 7hp Westerbeke Vire gasoline engine.

Nonetheless, she's all Yankee in 100% hand lay-up fiberglass construction, one-piece hull with molded-in cove and contrasting boot top, one-piece deck with molded-in non-skid, teak toerail, companionway drop slides and trim. Mast is Yankee custom elliptical aluminum extrusion with special masthead and offset spinnaker halyard crane. Standing rigging is stainless steel with 7/32" head and backstay, 1/4" upper and lower shrouds, 1/8" midstay. Boom is round grooved aluminum and roller-type mainsheet traveller is cabin-top mounted. All underwater thru-hull fittings are equipped with valves.

Forward compartment has quarter berth under double berth and chain locker in bow. Settee berth and after quarter berth complete sleeping accommodations for five.

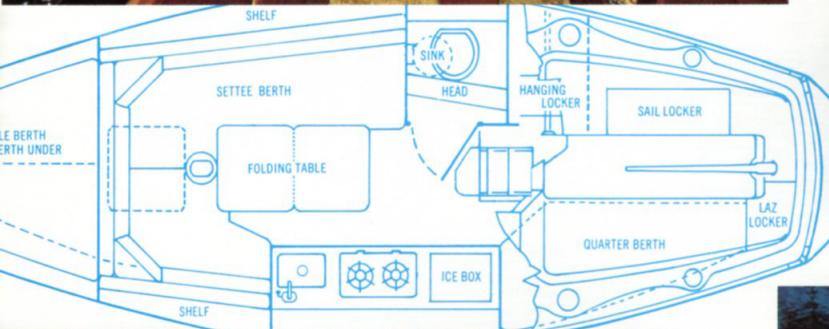

Galley has ample counter space, stainless steel sink, stove area, two storage bins, dish rack above, four drawers and cabinet below.

# G 26 FROM YANKEE YACHTS... IOR MARK III QUARTER TON RACER!

Main cabin has 5'8" headroom, Phillipine mahogany cabinetry, bulkheads and trim. Standard cushions are expanded vinyl covered 3" foam. Fully extended, three-position folding table accommodates five.

Head compartment has shelf, storage bin and access to thwartship hanging lockers.

Large cockpit provides plenty of room for lounging and racing/cruising convenience with sail locker and recess for engine controls.

To the cruising man, the Yankee 26 is a compact, convenient sized cruiser with no sacrifice of performance for all her comfortable living space and ample storage. With accommodations for five, she's a comfortable home afloat with the ability to race home with the best.

To the racing buff, she's a thorobred, Sparkman & Stephens designed, IOR Mark III, quarter-ton racer built and equipped by Yankee Yachts to their exceptional standards of quality—Plus the bonus of really comfortable quarters for long races and layovers.

Yankee 26 truly is the boat to give the cruiser the edge to race and the racer the urge to cruise—at least between races!
