Get on a Zuma® and get away

from the noise, hassle, and hustle that can make civilization so uncivilized. Enjoy the sun on your face, the wind in your hair, and the beauty of the sail as it catches the wind and propels you swiftly and silently away from shore.

There's no simpler, saner way to sail.

to the water. Or easier to handle once you're on it. Its hard chines and low aspect sailplan make Zuma a safe and stable performer even a novice can enjoy.

In fact, the Zuma was designed from its inception to be the ideal boat for relaxation and recreation. With a cockpit nearly seven

to be flush, so they'll never be in the way whether you're suntanning on deck or sliding the Zuma on or off your car.

With a Zuma, there's virtually no maintenance needed, no storage hassles, no trailer required, no need for a slip or mooring. So there's no reason to wait. Get a Zuma.

Just short of 13 feet, the Zuma is small enough to strap on your car, yet large enough for two to sail comfortably.

No other sailboat is easier to transport

feet long, there's plenty of room for a first mate, or even a couple of kids. The rolled seat tanks are engineered for exceptional comfort. Even the deck fittings are designed

Catch the wind. And free your spirit.
