

A sailboat for everybody

ZUMA sailors tell you why Zuma is one of the most successful and exciting new boats on the market today.

Simplicity without sacrifice.

"ZUMA rigs faster than any boat I've ever owned."

"ZUMA cartops easily. It's light and easy to handle in and out of the water."

"The sail zips over the two-piece mast, the rudder clips on in one easy move and the rest of the rig is shipshape in no time flat."

"ZUMA is effortless to beach. I just pull up the daggerboard, the rudder pops up by itself, and I can sail right up onto the sand."

zum

Everything fits. Everything works.

"The boat is well thought-out and well crafted."

"The self-storing system for the mast and boom is great. When it comes time to pack up and head home, I just slide the whole thing into the inspection port.

Beautiful!

Speed...and safety, too.

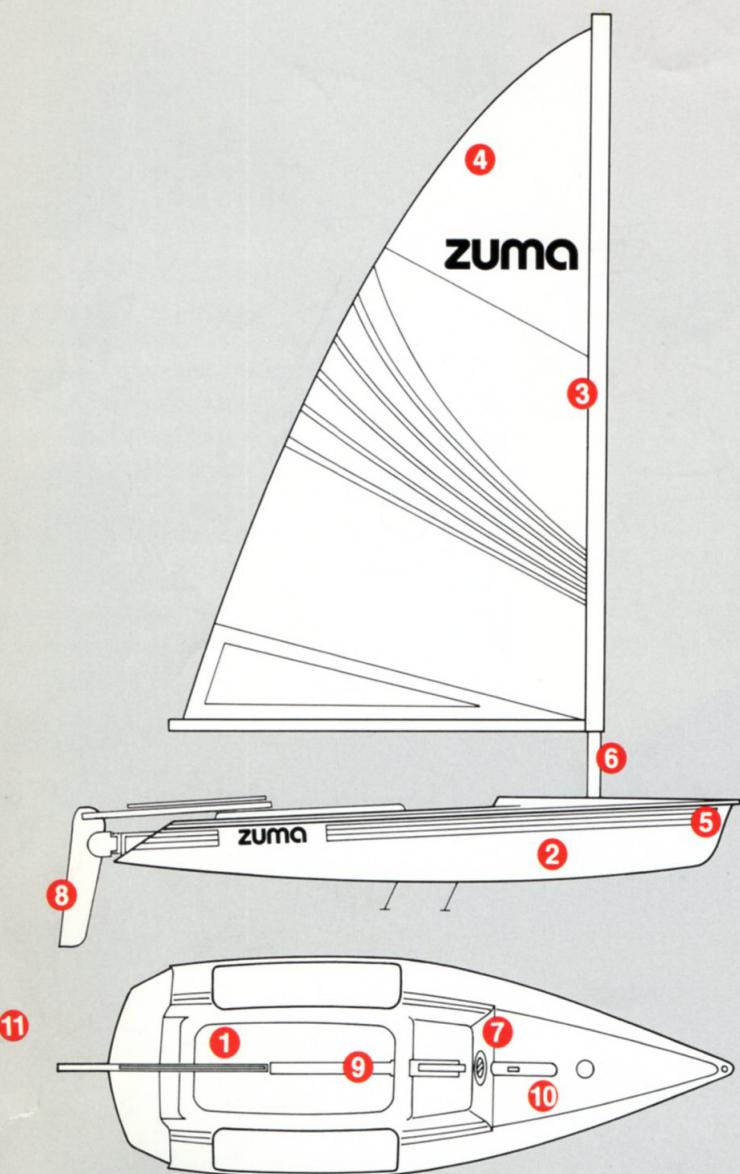

"Upwind, ZUMA's faster than any other small boat I've sailed. And offwind the boat can plane with the best of them."

zuma

ZUMA

A sailboat for everybody.

ZUMA Specifications

Length overall	12 ft. 11 in.	Mast height above water	18 ft.

ZUMA. A quick cruise through the highlights:

- 1 **Big, roomy cockpit.** Rolled cockpit sides and plenty of elbow room make ZUMA a comfortable all-day sailboat.
- 2 **High-volume hull.** A hard-chine bottom gives the boat a flat "base" for a more stable ride. Positive foam flotation makes it virtually unsinkable.
- 3 **Sleeved sail with halyard system.** The zippered sleeve and halyard let you raise and lower the sail without tipping the boat over on its side.
- 4 **High-aspect ratio sailplan.** Concentrates sail area up high where the wind is. For faster, more exciting sailing and better control when it gets breezier.
- 5 **Durable, maintenance-free finish.** Tough gelcoat over seamless hand laid-up fiberglass. Takes the hard knocks that come with learning.
- 6 **Black anodized two-piece mast.** Together with the boom it nests securely and neatly in the hull for convenient cartopping. We use extra heavy grade aluminum for strength and dependability.
- 7 **Inspection port with storage bag.** Provides a dry cargo area for valuables, lunch, etc. And an ingenious place to fit the mast and boom for transport and storage.
- 8 **Kick-up rudder.** There's no better design when you want to run a boat right up onto the beach or cruise over shallow areas.
- 9 **Hiking strap.** Secure and comfortable. So you can concentrate on sharpening your sailing skills and experience ZUMA's lively performance.
- 10 **Flush deck.** What you don't see is important here; no fittings to hang up the boat as you're sliding it onto a roof rack.
- 11 **Invisible advantage.** Sunfish Sailboats is the biggest name in small sailboats. That experience and reputation is behind every ZUMA we make. So is a full one-year warranty.
